At the request of the Secretary of Defense, we have, in the past, installed protective countermeasure devices on the telephone equipment of certain top Defense officials. By the attached letter of January 5, 1961, we are asked to install this protection in the home of the newly appointed Assistant Secretary of Defense for International Security Affairs Paul H. Nitze. Mr. Nitze handles all matters relating to Defense participation in the National Security Council and is involved in the most sensitive policy problems in Government.

ACTION:

If you approve, the FBI Laboratory will make the installation as requested.

SUBJECT: SECURITY SURVEY, RESIDENCE
TELEPHONES OF PAUL H. NITZE,
DEPUTY SECRETARY OF DEFENSE

Security of Telephone Services *RJB*

In my 6/23/67 memorandum to you concerning the above subject (which the Director approved), I indicated there were Washington, D. C., and a Bel Alton, Maryland, residence involved.

On 6/26/67 and 7/3/67 Radio Engineering Section personnel completed the check of the telephone facilities at 3120 Woodley Road, N. W., Washington, D. C. This included the examination of five instruments, two normal commercial lines, one White House Security Board line, and two Command Post lines. All terminal appearances of these lines were examined at the residence, the telephone exchange buildings, and at all points outside these locations.

No evidence of tampering was observed.

Colonel Abbott Greenleaf, Military Assistant to the Secretary of Defense, advised that the underground cable for the Security Board and Command Post lines has not yet been installed at the Bel Alton, Maryland, residence and requested that that portion of the check be deferred until the telephone company completes the installation sometime after July 15, 1967. Colonel Greenleaf will advise SA John M. Matter or SA Wilbur G. Stevens when the Bel Alton installation is completed.

RECOMMENDATION:

That Liaison Section advise Mr. William C. Hunt (Director, Security Division, Office of Secretary of Defense), of (1) the results of the completion of the check at 3120 Woodley Road, N. W., and (2) the fact that the Bel Alton, Maryland, check will not be completed until the telephone company finishes underground cable installation there, sometime after July 15, 1967.

By letter to the Director dated 6/21/67, Mr. William C. Hunt (Director, Security Division, Office of Secretary of Defense) inquired whether the Bureau would conduct a telephone security check for the above Defense Department official at his residences at 3120 Woodley Road, N. W., Washington, D. C. and at Bel Alton, Maryland.

m3 For your information, William C. Hunt is most cooperative with the Bureau. At his special request on a limited number of occasions in the past, the Bureau has performed security services for the Secretary of Defense, the Deputy Secretary of Defense and for Mr. Nitze (when the latter was an Assistant Secretary of Defense).

ACTION:

Unless otherwise advised, Laboratory personnel will conduct a security check of the residence telephones of Deputy Secretary of Defense, Paul H. Nitze, on 6/27/67.
